

XELOS

Social Workplace

Bye Bye, E-Mail!

The Social Workplace solution for efficient cooperation.

Put a stop to your Email chaos!

Do you communicate with your colleagues through endless Email conversations? You need to work together on documents but lose sight over all the different versions? Your project's progress goes slowly, and it is difficult to coordinate meetings among all your colleagues? For these and similar day-to-day problems XELOS is the perfect solution.

Boost your teamwork: Your advantages with XELOS!

Enhanced communication

Improve the communication throughout your company and reduce the amount of unnecessary emails with the integrated messenger. Stay up-to-date of all new developments with the help of XELOS' Social Activity Stream. Share ideas quickly and use likes and mentions to quickly communicate your thoughts to your colleagues.

Fast access to information

Find important information and files faster thanks to the modern document management system. This helps you complete important tasks and meet deadlines faster than ever before. All the integrated features like versioning, full-text indexing and direct-editing will put an end to the chaos in your documents. Have complete access to all your documents even when away from your office – thanks to the new mobile app.

More productive collaboration

Bring employees from all divisions such as management, sales, human resources, marketing and external service providers together and enable them to collaborate on projects. Get excellent results with the XELOS's integrated project management tools: create project groups, share information, collaborate on documents and complete tasks as a team.

Your own Social Workplace

Get to know it's new features

Social Notifications

Receive notifications and stay up-to-date about new likes and shares from your colleagues. Easily stay connected!

Documents

See new documents directly on the activity stream and edit them directly from within XELOS. XELOS saves all versions automatically and your colleagues can collaborate and give you feedback directly.

Projects

Collaborate with your colleagues in project groups. XELOS offers you many tools to simplify and speed up your work.

Invite external members

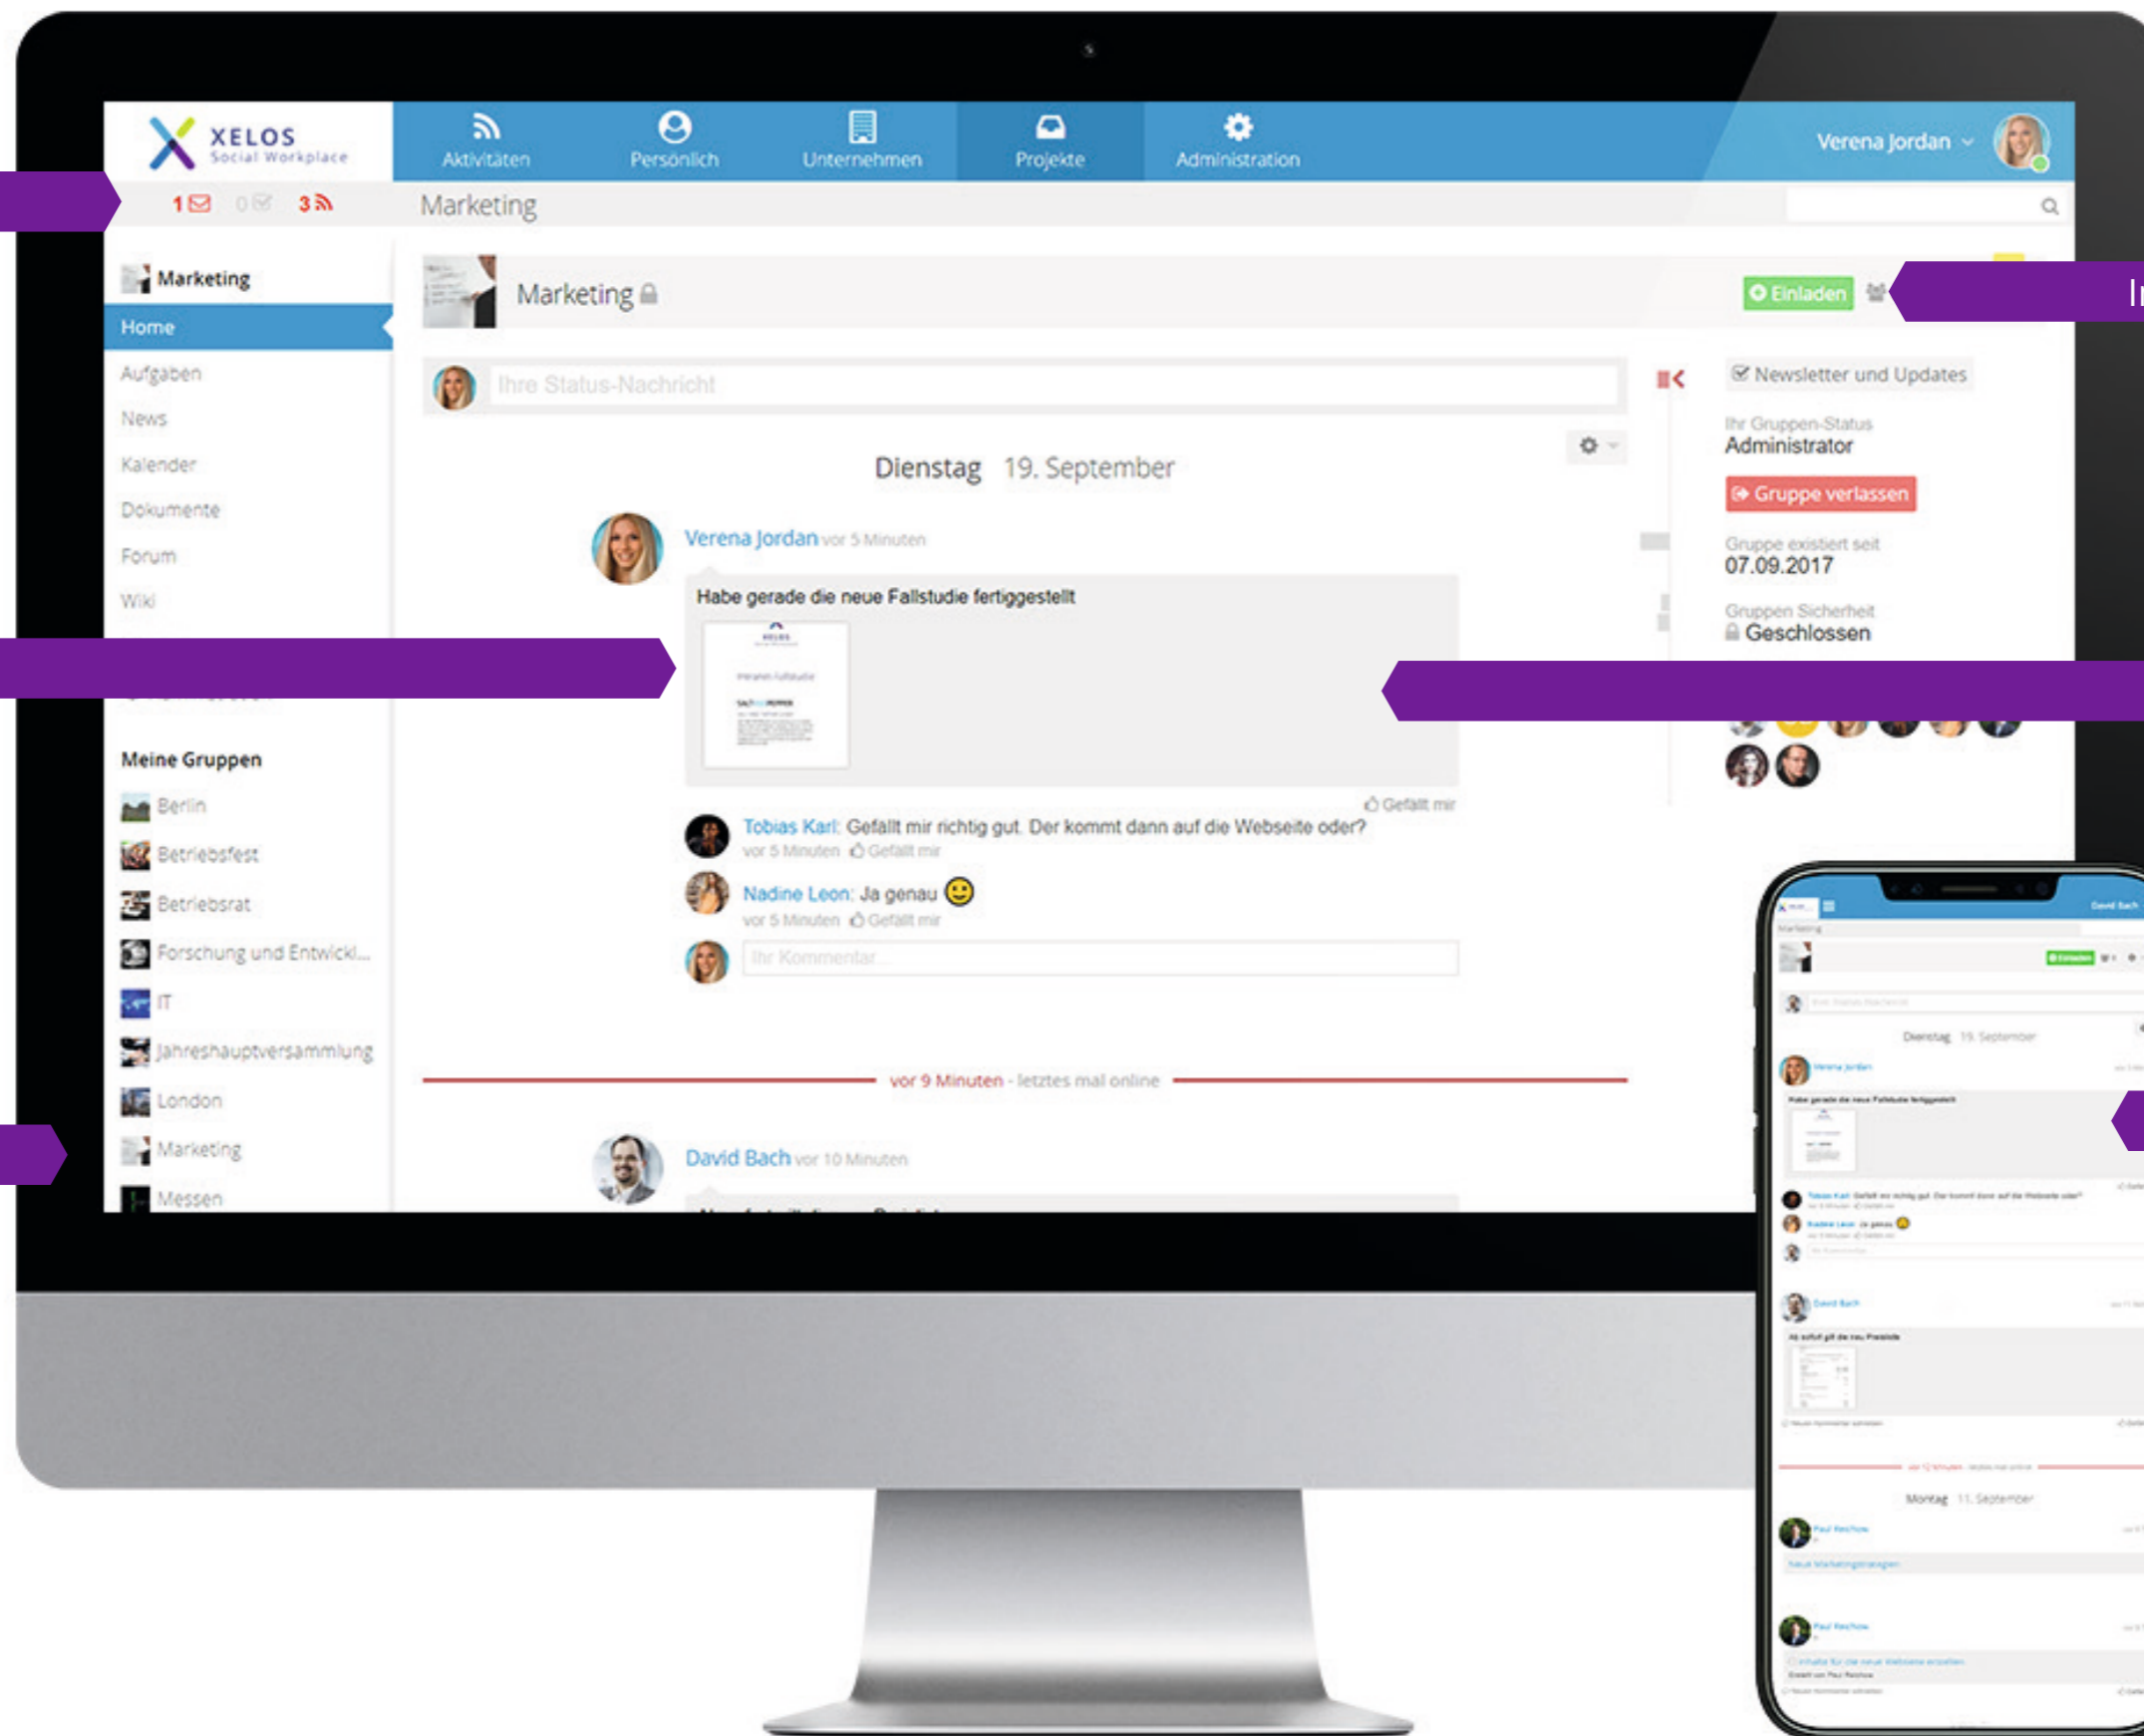

Easily invite external co-workers and service providers. They can either be given only limited access or collaborate fully.

MS Office integration

XELOS provides you with a direct integration into MS Office apps. You can edit, save and comment documents stored in your new intranet directly from within your MS Office apps.

Stay mobile

Stay connected to all your colleagues, documents, tasks and all the other features through the XELOS app for your mobile device.

More than 35 Apps

Expand the capabilities of your XELOS according to your individual requirements. We even develop apps according to your specifications.
